

Online Ordering for the Cafe

We are slowly approaching August, marking our first year anniversary of being open during the evenings! A huge thank you to all who have dined with us and enjoyed Bittersweet's evening menu and desserts. Quite a lot has happened over the course of the year and one of the most exciting add-ons has been our new '[on-line ordering](#)' feature for the café. Feel free to forward any comments or suggestions to me at neya@bittersweetcatering.com.

Our goal is to provide you with great food and service and to make it as easy as possible; by placing your order online you can eliminate the lines in the cafe because the entire order is processed online from start to finish. The system has been designed for everyone, because you can order all of your favorite items and still tailor it to your liking (and it saves your past orders making it easier to place future orders). The best part is that your order will be waiting for you to pick-up in the café without the hassle of having to wait in line to check-out! It's a must see, must try - check out the pictures because those are some good lookin' sandwiches!
